

**REMARKS**

This application is a national stage application filed under 35 U.S.C § 371 of International Application PCT/SE2004/001173 filed August 9, 2004, which claims the benefit of priority to Swedish Application SE 0302206-8, filed August 12, 2003.

Prior to examination, please amend claims 1-14, which have been amended to place them in better form for examination, including removing multiple dependencies and correcting for U.S. practice, and please add claims 15-21.

A revised specification is submitted with paragraph numbering. The revised specification adds related application data to the beginning of the application in accordance with 37 C.F.R. § 1.78. In addition, the title has been amended to remove the term "new", the summary of the invention has been amended to reflect the claims added here, and minor typographical errors have been corrected. A substitute specification and a comparison document accompany this submission.

Support for the amendments can be found at least, for example, in: the original claims. No new matter has been added.

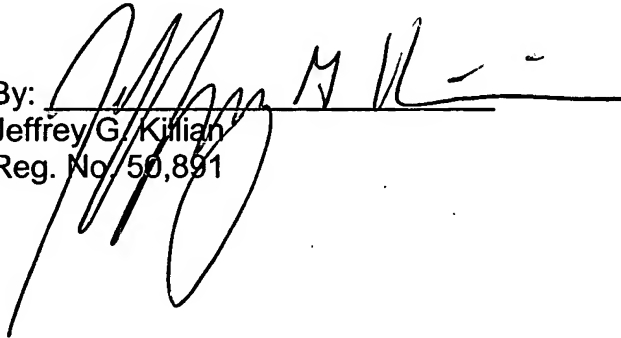

Early and favorable consideration with respect to this application is respectfully requested. Should any questions arise in connection with this application, the undersigned respectfully requests that he be contacted at the number indicated below.

In the event that there are any questions concerning this amendment or the application in general, the Examiner is respectfully requested to telephone the undersigned so that prosecution of the application may be expedited.

Respectfully submitted,

DRINKER, BIDDLE & REATH LLP
